

Casio Introduces Labemo

Prints Super-convenient Labels and Sticky Memos

Labemo MEP-U10

Norderstedt, December 3, 2012 — Casio Computer Co., Ltd. and Casio Europe GmbH announce the release of the Labemo MEP-U10, a device that can easily print labels and sticky memos on special backing-free tape.

The Labemo MEP-U10 connects via USB to a PC to print easy-to-read labels and memos in a wide range of languages and fonts installed on the computer. The specially made printing tape has no backing, and can be quickly applied or removed without any sticky residue, making it easy to use. Labemo can print as many copies of the same label as needed, and also has a printing history that allows easy reprinting of labels.

While the labels are useful for organizing, classifying, and highlighting documents and printed materials, Labemo can also be used for printing messages and notes. By utilizing the PC's copy and paste function, text taken from emails or other documents can be easily printed on memos.

- Prints labels in many different languages*
- Attractive easy-to-read text using a wide variety of fonts*
- Prints easy-to-apply and remove labels and memos using specially made, backing-free tape
- Print history for easy reprinting of labels
- Time stamp function for automatic inputting of the time and date on labels and memos
- Offers a wide selection of common phrases for even quicker printing

* Based on the languages and fonts installed on the PC used

Model	Color
MEP-U10	White

Labemo Tape

This specially made tape has no backing, and is also easy to apply and remove. Tape can also be written on after printing using a pencil or ballpoint pen.*

*May not be possible depending on the particular writing implement
