

CASIO to Release New SHEEN Watches with Elegant Crescent Moon Design

SHE-3058

Berlin, February 2018 CASIO announced today the release of new additions to its line of SHEEN metal watches for women, which are based on the concept of “Elegant, Smart, Shining.” The five new SHE-3058 models feature an elegant design highlighted by the soft elliptical shape of a crescent moon.

The SHE-3058 models feature a crescent moon design at the top and bottom of the bezel, and on the inset dials at the 3 and 9 o’clock positions. This design evokes the elegant shape of an ellipse to give the watch a soft and feminine look. The index marks are graced with a ridged pattern that draws a subtle oval around the inset dials on the dial face.

Swarovski® Crystals brilliantly adorn the top and bottom of the bezel, and the 3, 6 and 9 o’clock index marks on the dial face. The SHE-3058 design and materials elegantly capture the brilliance that originally inspired the SHEEN name.

The three inset dials show the date, day of the week, and 24-hour time, respectively. With water resistance up to 50 meters, these watches offer practical functionality paired with brilliant good looks for business.

The SHE-3058LTD-7A features a replaceable genuine leather band in luxurious white or optional chic navy blue. The band installs using a quick-release spring bar. This model also comes in a special case with a ribbon.

Model	Band Material	Face color
SHE-3058SPG-4A	Metal	Pink
