

CASIO to present latest generation of PRIVIA digital pianos at NAMM

The PX-S1000 und PX-S3000 are the world's slimmest digital pianos with hammer action

The new models PX-S1000 and PX-S3000

Norderstedt/Anaheim, 24 January 2019 – CASIO will be showcasing its new PX-S digital pianos at the NAMM Show in Anaheim, USA, between 24 and 27 January. The two models, the PX-S1000 and PX-S3000, form the latest generation in the successful Privia series. Taking their cue from the slogan “Slim. Stylish. Smart.”, they are extremely compact digital pianos with hammer action and 88 keys.

These two PX-S models owe their **low depth of 232 millimetres** to the newly developed **Smart Scaled Hammer Action Keyboard**, which provides the player with an authentic piano touch. The **Multi-Dimensional Morphing AiR sound source** ensures lifelike reproduction of playing and sound properties of acoustic instruments. What’s more, the PX-S1000 and PX-S3000 also offer **Bluetooth audio reproduction**. This gives users the option of using the piano as a Bluetooth loudspeaker and playing along to their favourite songs. The

newly developed loudspeaker system excels thanks to its powerful sound and impressive volume. Beyond that the „Chordana Play for Piano“ app is available for free for both models. It can be used as a practical remote controller or also as an interactive learning tool. The new PX-S models are flexible in their use thanks to optional battery-powered operation – perfect for practice and performance. The PX-S1000 (RRP 649. - €) will be available in black and white while the PX-S3000 (RRP 899. - €) comes in black.

The top features of the new PX-S models in brief:

PX-S1000	PX-S3000
<ul style="list-style-type: none"> • Slim design • New hammer action: Smart Scaled Hammer Action Keyboard • Bluetooth Audio • 18 sounds • „Chordana Play for Piano“ App-connection • MIDI Recorder • USB TO HOST, LINE OUT & AUDIO IN connection • New loudspeaker system: 8 W + 8 W • Battery power supply possible • Only 11,2 kg • Optional: CS-68 stand, 3-pedal unit SP-34, piano carrying bag SC-800P 	<ul style="list-style-type: none"> • Slim design • New hammer action: Smart Scaled Hammer Action Keyboard • Bluetooth Audio • 700 sounds / 200 rhythms • „Chordana Play for Piano“ App-connection • Audio Recorder, MIDI Recorder • USB TO HOST, USB TO DEVICE, LINE OUT & AUDIO IN connection • New loudspeaker system: 8 W + 8 W • Battery power supply possible • Only 11,4 kg • Optional: CS-68 stand, 3-pedal unit SP-34, piano carrying bag SC-800P

The new PX-S1000 and the associated accessories are available from retailers from April 2019. The PX-S3000 will follow in May 2019.

About Privia

The Privia digital piano series was developed in 2000s with the aim of providing users with the advantages of a piano in a compact case while also offering an attractive price. CASIO also sought to improve the digital piano's performance in terms of sound and piano touch. The first Privia, the PX-100, was launched in Europe in spring of 2004. Since then, the Privia series has produced a lasting, positive effect on development of the digital piano market. CASIO is setting yet another significant milestone in 2019 with the new PX-S models.
